

FOR IMMEDIATE RELEASE

**BMR Suspension Seat Belt Harness Bar for S650 Mustang
HB760 - \$639.95**

Properly mount a four-point seat belt harness in your 2024 Mustang with a Seat Belt Harness Bar from BMR Suspension. The BMR Harness Bar (HB760) offers the ability to mount an aftermarket racing harness, and provides additional S650 chassis stiffness. Constructed from DOM steel tubing and 3/16" laser-cut mounting plates, the BMR Harness Bar provides exceptional rigidity and durability. The BMR Harness Bar (HB760) is built to easily mount a 4-point harness in a S650 Mustang and allows for the mounting of a 5-point harness with the proper set up. Designed around the use of existing bolt holes and seatbelt mounting points. This harness bar is easily installed and removed and conveniently maintains the use of the factory 3-point seatbelt for street usage.

BMR has designed the HB760 for road racing applications. Installation time is 2-3 hours. Available in black hammertone or red powdercoat for long-lasting good looks. Proudly made in the U.S.A.
