

FOR IMMEDIATE RELEASE

**BMR Suspension Lower A-Arms w/ Delrin Bushings for 1967-1969 GM F-Bodies,  
1968-1974 GM X-Bodies**

**AAL311 - \$589.95**

Improve handling and front-end stability in your 1967-1969 GM F-Body and 1968-1974 GM X-Body with a set of tubular lower A-arms from BMR Suspension. BMR Suspension's (AAL311) outperforms the factory arms that are made from bulky stamped steel and high deflection rubber bushings. Manufactured from 1.5" DOM tubing and laser-cut 3/16" mounting plates, the AAL311 lower A-arms feature internally-fluted Delrin bushings with easy-to-access grease fittings. BMR's AAL311 lower A-arms significantly improve steering feel and response in normal and performance driving conditions. Upgraded Delrin bushings offer a solid, more responsive feel compared to stock rubber bushings. BMR has designed the AAL311 for street performance, drag race, and handling applications. Available in red and black hammertone powdercoat finishes for long-lasting good looks. Installation time is approximately 3-4 hours. Proudly made in the USA!
