

FOR IMMEDIATE RELEASE

**BMR Suspension AC and Heater Delete Panel for S650 Mustang
ACD761 - \$39.95**

Decrease weight and improve engine accessibility on your S650 Mustang with an AC Delete Panel from BMR Suspension. Race cars do not need air conditioning and deleting the system can save almost 50 pounds. Constructed from CNC laser cut 1/16" aluminum, BMR A/C Delete Panels are lightweight as well as rigid to resist flexing. The BMR AC Delete Panel (ACD761) is patterned after the opening of the OE A/C box. BMR has designed the ACD761 for hardcore drag racing and road course applications. Installation time is 1-2 hours. Proudly made in the U.S.A.
