

FOR IMMEDIATE RELEASE

**Bump Steer Kit, Street Version for 1964-1970 GM A-Bodies
BSK400 - \$149.95**

Correct bump steer and improve the steering geometry of your 1964-1970 A-Body with a Bump Steer Kit from BMR Suspension! Outer tie rods can wear out over time and increase the amount of bump steer you get while driving. BMR's Bump Steer Kit, Street Version (BSK400) corrects bump steer issues and improves the steering geometry of your vehicle for street and track use. BMR's BSK400 is manufactured from 1.125-inch heavy-duty 6061 aluminum and serves as a direct factory replacement for your A-Body's outer tie rods. BMR designed the BSK400 for street performance, road racing, and drag racing applications and is available black anodized for long-lasting good looks. Installation time is about 1-2 hours. Proudly designed and made in the USA!
