

FOR IMMEDIATE RELEASE

Bump Steer Kit, Street Version for 1997-2004 C5 Corvettes and 2005-2013 C6 Corvettes, including C5 Z06 and C6 Z06/ZR1

BSK550 - \$189.95

Correct bump steer and improve the steering geometry of your C5 and C6 Corvette with a Bump Steer Kit from BMR Suspension! Outer tie rods can wear out over time and increase the amount of bump steer you get while driving. BMR's Front Bump Steer Kit, Street Version (BSK550) corrects bump steer issues and improves the steering geometry of your Corvette for street and track use. BMR's BSK550 is manufactured from 1.125-inch heavy-duty 6061 aluminum and serves as a direct factory replacement for your Corvette's outer tie rods. For those looking to correct bump steer, the BSK550 is the kit for you.

BMR Suspension has designed the BSK550 for street performance, drag racing, and handling applications. The BSK550 is available black anodized for a durable finish, and installation time is about 1-2 hours. As with all other BMR Suspension products, the BSK550 is proudly designed and made in the USA!

To preview all of BMR's high-performance suspension parts, please visit www.bmrsuspension.com, email sales@bmrsuspension.com, or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
