

FOR IMMEDIATE RELEASE

**Bump Steer Kit for 2005-2014 S197 Mustangs and 2007-2014 Shelby GT500s  
BSK750 - \$129.95**

Correct bump steer and improve the steering geometry of your 2005-2014 Mustang and 2007-2014 Shelby GT500 with a Bump Steer Kit from BMR Suspension! Outer tie rods can wear out over time and increase the amount of bump steer you get while driving. BMR's Bump Steer Kit (BSK750) corrects bump steer issues and improves the steering geometry of your vehicle for street and track use. BMR's BSK750 is manufactured from 1.125-inch heavy-duty 6061 aluminum and serves as a direct factory replacement for your Mustang's outer tie rods. BMR designed the BSK750 for street performance, road racing, and drag racing applications and is available black anodized for long-lasting good looks. Installation time is about 1-2 hours. Proudly designed and made in the USA!
