

FOR IMMEDIATE RELEASE

**BMR Suspension Chassis Jacking Rails for 2024-Current S650 Mustangs**

**CJR771 - \$189.95**

Add strong lift points and extra rigidity to your 2024-Current Mustang with bolt-on Chassis Jacking Rails from BMR Suspension! Jacking your Mustang up on its pinch welds can easily damage the pinch welds and floor pans, eventually causing panel misalignment. Manufactured from heavy-duty 1x2-inch box steel tubing, BMR's Chassis Jacking Rails (CJR771) are designed to give you a solid jacking or jack stand point on your S650 Mustang. BMR's CJR771 ensure the pinch welds and floor are not damaged from lifting the car. The CJR771's super-low profile design provides ample clearance for getting a jack and stands underneath your Mustang, even if its lowered.

BMR Suspension has designed the CJR771 for practically any application. The CJR771 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 1 hour. As with all other BMR Suspension products, the CJR771 is proudly designed and made in the USA!

To preview all of BMR's high-performance suspension parts, please visit [www.bmrsuspension.com](http://www.bmrsuspension.com), email [sales@bmrsuspension.com](mailto:sales@bmrsuspension.com), or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
