

FOR IMMEDIATE RELEASE

**BMR Suspension Driveshaft Safety Loop for 1968-1972 GM A-Body  
DSL410 - \$79.95**

Protect your 1968-1972 GM A-Body, while complying with NHRA safety rules, with a Driveshaft Safety Loop from BMR Suspension. Built from 1/4-inch laser-cut CNC-formed plate steel, BMR's DSL410 Driveshaft Safety Loop bolts-on with no fabrication or welding required. The BMR Driveshaft loop (DSL410) offers a unique two-piece design that is simple to install and does not require the removal of the driveshaft. This design gives you a solidly mounted loop that will remain in place should a driveshaft or transmission failure occur, keeping it from ripping through the floor and injuring the driver. The BMR A-Body Driveshaft Safety Loop is cheap insurance to protect your investment and provide peace-of-mind whether you are at the track or on the street. BMR has designed the DSL410 for street performance, drag racing, and road course applications. Available in black hammertone and red powdercoat for long lasting good looks. Proudly made in the U.S.A.!
