

FOR IMMEDIATE RELEASE

**BMR Suspension Level 1 Handling Package for 1978-1987 GM G-Body
HPP047 - \$849.00**

Improve overall handling in your 1978-1987 GM G-Body with a Level 1 Handling Performance Package from BMR Suspension. This kit consists of a BMR Sway Bar Kit (SB031), 1.5-inch Lowering Springs (SP035), and Bilstein front and rear shocks (BSN-G-78-87). BMR tubular sway bars add increased sway bar rate, which decreases body roll. BMR springs are constructed from high tensile silicone chromium spring wire and come with a lifetime warranty against spring sag. The Bilstein shocks offer high levels of performance and a great ride on any road. The Level 1 Handling Package (HPP047) will lower the center of gravity, decrease body roll, and dramatically increase the cornering capabilities of your G-Body. All components also sold separately. Sway Bars available in black hammertone or red powdercoat finishes. Installation is 3-4 hours. Proudly designed and manufactured in the U.S.A. When performance is a must, rely on BMR Suspension!
