

FOR IMMEDIATE RELEASE

BMR Suspension Polyurethane Motor Mount Kit for C5 and C6 Corvettes

MM550 - \$119.95

Reduce engine deflection and improve throttle response on your 1997-2004 C5 and 2005-2013 C6 Corvette with a Polyurethane Motor Mount Kit from BMR Suspension! Factory motor mounts are designed to absorb noise and vibration for a smooth ride, but do little for performance. BMR's Polyurethane Motor Mount Kit (MM550) is manufactured from heavy-duty, laser-cut steel plate and utilizes 95-durometer polyurethane bushings to reduce engine deflection and improve throttle response. The MM550's polyurethane bushings ensure minimal changes in NVH while offering quicker response times over factory mounts. BMR's MM550 includes both upper and lower mounts and maintains the factory height of the engine. For those looking to upgrade their motor mounts with added strength and rigidity while minimizing NVH increases, BMR's MM550 is the way to go.

BMR has designed the MM550 for street performance, drag racing, and handling applications. BMR's MM550 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 2-3 hours. As with all BMR Suspension products, the MM550 is proudly designed and made in the USA!

To preview all of BMR's high-performance suspension parts, please visit www.bmrsuspension.com, email sales@bmrsuspension.com, or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
