

FOR IMMEDIATE RELEASE

BMR Suspension Delrin Motor Mount Kit for C5 and C6 Corvettes

MM551 - \$129.95

Eliminate engine deflection and improve throttle response on your 1997-2004 C5 and 2005-2013 C6 Corvette with a Delrin Motor Mount Kit from BMR Suspension! Factory motor mounts are designed to absorb noise and vibration for a smooth ride, but do little for performance. BMR's Delrin Motor Mount Kit (MM551) is manufactured from heavy-duty, laser-cut steel plate and utilizes solid Delrin bushings to eliminate engine deflection and greatly improve throttle response. BMR's MM551 includes both upper and lower mounts and maintains the factory height of the engine. For those looking for quicker throttle response and the best in performance, BMR's MM551 is the upgrade you need.

BMR has designed the MM551 for street performance, drag racing, and handling applications. BMR's MM551 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 2-3 hours. As with all BMR Suspension products, the MM551 is proudly designed and made in the USA!

To preview all of BMR's high-performance suspension parts, please visit www.bmrsuspension.com, email sales@bmrsuspension.com, or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
