

FOR IMMEDIATE RELEASE

**BMR Suspension Panhard Rod Relocation Kit for 2021-2025 Broncos**

**PRR1860 - \$49.95**

Correct the Panhard rod geometry of your lifted 6<sup>th</sup> Gen Ford Bronco with a Panhard Rod Relocation Kit from BMR Suspension! Your Panhard rod's geometry can be altered when lifting your Bronco one inch or higher, causing handling issues and hindering your off-roading abilities. BMR's Panhard Rod Relocation Kit (PRR1860) includes a heavy-duty steel relocation bracket and Grade 8 and 10.9 hardware to give you the ultimate in strength when relocating your Panhard rod. The PRR1860 corrects the geometry of your Panhard rod on Broncos that are lifted one inch or higher. This upgrade is essential to those that don't want to leave any unused performance on the table and improves the handling of your lifted Bronco for off-roading applications.

BMR Suspension has designed the PRR1860 for off-roading and street performance applications. The PRR1860 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 1 hour. As with all BMR Suspension products, the PRR1860 is proudly designed and manufactured in the USA!
