

FOR IMMEDIATE RELEASE

BMR Suspension Shock Mount Kit for S550 and S650 Mustangs

SM762 - \$359.95

Strengthen the chassis of your S550 and S650 Mustang with a Shock Mount Kit from BMR Suspension! Manufactured from 1.25-inch, 0.120-inch wall DOM tubing and laser-cut, CNC-formed plate steel brackets, BMR's Shock Mount Kit (SM762) strengthens the rear shock mounting locations on your S650 Mustang. The SM762 improves handling by linking the rear shock mounts with the strut tower brace to firm up the Mustang's chassis. This leads to a dramatic increase in chassis stiffness, improving handling on the track and street. BMR Suspension designed the SM762 for street performance, drag racing, and handling applications. Available in red or black hammertone powder coat for long lasting good looks. Installation time is about 5-6 hours. Proudly designed and made in the USA!
