

FOR IMMEDIATE RELEASE

**BMR Suspension 3-Inch Drop Front Lowering Springs for 1967-1969 GM F-Bodies and  
1968-1974 GM X-Bodies**

**SP314 - \$179.95**

Increase cornering ability and improve the cosmetic appeal of your 1967-1969 F-Body and 1968-1974 X-Body with Lowering Springs from BMR Suspension! Stock springs can sag, get rusty, and simply wear out over a long period of time. Manufactured from chrome silicon high-tensile spring wire, these springs are cold wound on a CNC coiling machine that can adjust the spring diameter in real time to ensure that every spring is exactly the same. BMR's Front Lowering Springs (SP314) lower the front of your vehicle by 3-inches without sacrificing ride quality. The SP314 has a spring rate of 620-lb/in and improves the handling and ride quality of your F- or X-Body. Like all BMR lowering springs, the SP314 has a lifetime guarantee against spring sag and is designed for street performance and pro-touring applications. The SP314 is available in red powder coat for long-lasting good looks. Installation time is about 2-3 hours. Proudly designed and made in the USA!
