

FOR IMMEDIATE RELEASE

BMR Suspension Double Adjustable Rear Toe Rods for 2015-2019 Cadillac CTS-Vs

TR630 - \$299.95

Launch harder and reduce wheel hop on your 3rd Gen Cadillac CTS-V with rear toe rods from BMR Suspension! Factory toe rods can deflect under cornering loads, giving you inconsistent alignment and handling characteristics on the track and street. Designed from heavy-duty 1.25-inch DOM steel tubing, BMR's Double Adjustable Toe Rods (TR630) dramatically reduce toe rod flex. The TR630 utilizes left and right-hand threaded rod ends and come double adjustable for easy toe changes. Included with the TR630 are rear toe lockout plates, allowing you to eliminate factory toe adjustment. BMR's toe rods are the perfect upgrade for those looking to maximize performance and add adjustability to their build!

BMR Suspension has designed the TR630 for street performance, drag racing, and road racing applications. The TR630 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 1-2 hours. As with all other BMR Suspension products, the TR630 is proudly designed and made in the USA!
