

FOR IMMEDIATE RELEASE

BMR Suspension Caster Camber Plates for 1994-2004 Ford Mustangs

WAK740 - \$239.95

Add caster/camber adjustability and fix alignment issues on your lowered 1994-2004 Mustang with Caster Camber Plates from BMR Suspension! The factory alignment adjustability on your Mustang can be insufficient when the vehicle is lowered. BMR's Caster Camber Plates (WAK740) add aggressive alignment settings to your Mustang to improve performance on the track and street. The WAK740 utilizes 0.25-inch laser-cut steel plate and Teflon-lined spherical bearings to provide a camber range from -3.5 degrees to +1.0 degree. With a 100% bolt-on design, the WAK740 is the perfect part to correct the alignment on your SN-95 and New Edge Mustang and add multiple settings for the street and track.

BMR has designed the WAK740 for street performance, drag racing, and handling applications. BMR's WAK740 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 1-2 hours. As with all BMR Suspension products, the WAK740 is proudly designed and made in the USA!

To preview all of BMR's high-performance suspension parts, please visit www.bmrsuspension.com, email sales@bmrsuspension.com, or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
